# THE POWER OF TEAMWORK – COURSES NOW AVAILABLE

## **CONSTRUCTION HOIST OPERATOR TRAINING COURSE**

This course instructs an applicant to operate a Construction Hoist, with 3 options available based on type

## **CONSTRUCTION HOIST DEMONSTRATOR TRAINING COURSE**

This course instructs demonstrators in the safe use similar to the Operator course. In addition, demonstrators are responsible for performing familiarisation to users and trained operators

## **CONSTRUCTION HOIST COMPETENT ASSESSED PERSON (CAP) PROGRAMME**

The CAP programme is an advanced level of assessment leading to the certification that engineers are proficient in undertaking statutory inspections of Construction Hoists to the highest specification

## **MAST CLIMBING WORK PLATFORMS (MCWPS) & CONSTRUCTION HOISTS (CHS) FOR MANAGERS TRAINING COURSE**

This course is designed for managers using MCWPs and Hoists to know what their legal responsibilities are and how to ensure best use of equipment. This includes, planning, risk assessment and selection of the correct equipment for the project

## **CONSTRUCTION HOIST INSTALLER/ADVANCED INSTALLER**

To futureproof the industry, by providing a specific installer course training new entrants (after a qualifying period of practical experience), a stepping stone to high level qualifications (NVQ in UK/Ireland)

# TEAMWORK

---

# WHAT DOES THIS MEAN?

- Competent assessed staff
- New entrant levels for the industry
- Tackling the skill shortage
- Reduction in misuse of equipment
- Minimise risk of injury or damage to equipment
- Provide a better understanding for everyone
- Ensure awareness of legal responsibilities
